Art Unit

2173

-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --
Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 1 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133).
- Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Status

- 1) ☒ Responsive to communication(s) filed on 23 October 2003.
- 2a) ☐ This action is **FINAL**. 2b) ☐ This action is non-final.
- 3) ☐ Since this application is in condition for allowance except for formal matters, prosecution as to the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

Disposition of Claims

- 4) ☐ Claim(s) _____ is/are pending in the application.
- 4a) Of the above claim(s) _____ is/are withdrawn from consideration.
- 5) ☐ Claim(s) _____ is/are allowed.
- 6) ☐ Claim(s) _____ is/are rejected.
- 7) ☐ Claim(s) _____ is/are objected to.
- 8) ☐ Claim(s) _____ are subject to restriction and/or election requirement.

Application Papers

- 9) ☐ The specification is objected to by the Examiner.
- 10) ☐ The drawing(s) filed on _____ is/are: a) ☐ accepted or b) ☐ objected to by the Examiner.
Applicant may not request that any objection to the drawing(s) be held in abeyance. See 37 CFR 1.85(a).
Replacement drawing sheet(s) including the correction is required if the drawing(s) is objected to. See 37 CFR 1.121(d).
- 11) ☐ The oath or declaration is objected to by the Examiner. Note the attached Office Action or form PTO-152.

Priority under 35 U.S.C. §§ 119 and 120

- 12) ☐ Acknowledgment is made of a claim for foreign priority under 35 U.S.C. § 119(a)-(d) or (f).
a) ☐ All b) ☐ Some * c) ☐ None of:
1. ☐ Certified copies of the priority documents have been received.
2. ☐ Certified copies of the priority documents have been received in Application No. _____.
3. ☐ Copies of the certified copies of the priority documents have been received in this National Stage application from the International Bureau (PCT Rule 17.2(a)).
* See the attached detailed Office action for a list of the certified copies not received.
- 13) ☐ Acknowledgment is made of a claim for domestic priority under 35 U.S.C. § 119(e) (to a provisional application) since a specific reference was included in the first sentence of the specification or in an Application Data Sheet. 37 CFR 1.78.
a) ☐ The translation of the foreign language provisional application has been received.
- 14) ☐ Acknowledgment is made of a claim for domestic priority under 35 U.S.C. §§ 120 and/or 121 since a specific reference was included in the first sentence of the specification or in an Application Data Sheet. 37 CFR 1.78.

Attachment(s)

- 1) ☐ Notice of References Cited (PTO-892)
- 2) ☐ Notice of Draftsperson's Patent Drawing Review (PTO-948)
- 3) ☐ Information Disclosure Statement(s) (PTO-1449) Paper No(s) _____.
- 4) ☐ Interview Summary (PTO-413) Paper No(s). _____.
- 5) ☐ Notice of Informal Patent Application (PTO-152)
- 6) ☒ Other: *See Continuation Sheet*.

Notice of Non-Responsive Amendment

1. The timely submission under 37 CFR 1.129(a) filed on 10/23/03 is not fully responsive to the prior Office action because it does not response to all objection and rejections presented in the prior Office action.

In order to be entitled to reconsideration or further examination, the applicant or patent owner must reply to the Office action. The reply by the applicant or patent owner must be reduced to a writing which distinctly and specifically points out the supposed errors in the examiner's action and must reply to every ground of objection and rejection in the prior Office action. The reply must present arguments pointing out the specific distinctions believed to render the claims, including any newly presented claims, patentable over any applied references. If the reply is with respect to an application, a request may be made that objections or requirements as to form not necessary to further consideration of the claims be held in abeyance until allowable subject matter is indicated. The applicant's or patent owner's reply must appear throughout to be a *bona fide* attempt to advance the application or the reexamination proceeding to final action. A general allegation that the claims define a patentable invention without specifically pointing out how the language of the claims patentably distinguishes them from the references does not comply with the requirements of this section

Since the submission appears to be a *bona fide* attempt to provide a complete reply to the prior Office action, applicant is given a shortened statutory period of ONE MONTH or THIRTY DAYS from the mailing date of this letter,

Art Unit: 2173

whichever is longer, to submit a complete reply. This shortened statutory period supersedes the time period set in the prior Office action. This time period may be extended pursuant to 37 CFR 1.136(a). If a notice of appeal and the fee set forth in 37 CFR 1.17(e) were filed prior to or with the payment of the fee set forth in 37 CFR 1.17(r), the payment of the fee set forth in 37 CFR 1.17(r) by applicant is construed as a request to dismiss the appeal and to continue prosecution under 37 CFR 1.129(a). The appeal stands dismissed.

2. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Kieu D. Vu whose telephone number is (703-605-1232). The examiner can normally be reached on Mon - Thu from 7:00AM to 3:00PM.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, John Cabeca, can be reached on (703- 308-3116).

The fax phone numbers for the organization where this application or proceeding is assigned are as follows:

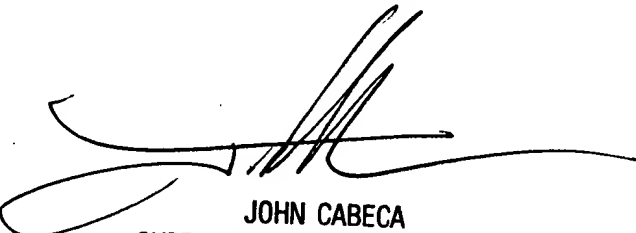

(703)-872-9306

and / or:

(703)-746-5639 (use this FAX #, only after approval by Examiner, for "INFORMAL" or "DRAFT" communication. Examiners may request that a formal paper / amendment be faxed directly to them on occasions)

Any inquiry of a general nature or relating to the status of this application or proceeding should be directed to the receptionist whose telephone number is (703-305-3900).

Kieu D. Vu

JOHN CABECA
SUPERVISORY PATENT EXAMINER
TECHNOLOGY CENTER 2100

713.07 Exposure of Other Cases

Prior to an interview in the examiner's room, the examiner should arrange his or her desk so that all files, drawings and other papers, except those necessary in the interview, are placed out of view. See MPEP § 101.

713.08 Demonstration, Exhibits, Models

The invention in question may be exhibited or demonstrated during the interview by a model thereof. A model received by the examiner from the applicant or his or her attorney which complies with 37 CFR 1.91 and which is made part of the application record must be properly recorded on the "Contents" portion of the application file wrapper. See MPEP § 608.03 and § 608.03(a).

Oftentimes a model or exhibit is not given into the custody of the Office but is brought directly into the group by the attorney solely for inspection or demonstration during the course of the interview. This is permissible. If the model or exhibit is merely used for demonstration purpose and is not made part of the record (does not comply with 37 CFR 1.91), a full description as to what was demonstrated/exhibited must be made of record in the application. See 37 CFR 1.133(b). Demonstrations of apparatus or exhibits too large to be brought into the Office may be viewed by the examiner outside of the Office (in the Washington, D.C. area) with the approval of the supervisory patent examiner. It is presumed that the witnessing of the demonstration or the reviewing of the exhibit is actually essential in the developing and clarifying of the issues involved in the application.

713.09 Finally Rejected Application

Normally, one interview after final rejection is permitted. However, prior to the interview, the intended purpose and content of the interview should be presented briefly, preferably in writing. Such an interview may be granted if the examiner is convinced that disposal or clarification for appeal may be accomplished with only nominal further consideration. Interviews merely to restate arguments of record or to discuss new limitations which would require more

than nominal reconsideration or new search should be denied. See MPEP § 714.13.

Interviews may be held after the expiration of the shortened statutory period and prior to the maximum permitted statutory period of 6 months without an extension of time. See MPEP § 706.07(f).

A second or further interview after a final rejection may be held if the examiner is convinced that it will expedite the issues for appeal or disposal of the application.

713.10 Interview Preceding Filing Amendment Under 37 CFR 1.312

After an application is sent to issue, it is technically no longer under the jurisdiction of the primary examiner. 37 CFR 1.312. An interview with an examiner that would involve a detailed consideration of claims sought to be entered and perhaps entailing a discussion of the prior art for determining whether or not the claims are allowable should not be given. Obviously an applicant is not entitled to a greater degree of consideration in an amendment presented informally than is given an applicant in the consideration of an amendment when formally presented, particularly since consideration of an amendment filed under 37 CFR 1.312 cannot be demanded as a matter of right.

Requests for interviews on cases where a notice of allowance has been mailed should be granted only with specific approval of the Technology Center Director upon a showing in writing of extraordinary circumstances.

714 Amendments; Applicant's Action [R-1]

37 CFR 1.121. Manner of making amendments in application.

(a) *Amendments in applications, other than reissue applications.* Amendments in applications, other than reissue applications, are made by filing a paper, in compliance with § 1.52, directing that specified amendments be made.

(b) *Specification other than the claims and listings provided for elsewhere (§§ 1.96 and 1.825).—*

(1) *Amendment by instruction to delete, replace, or add a paragraph.* Amendments to the specification, other than the claims and listings provided for elsewhere (§§ 1.96 and 1.825), may be made by submitting:

(i) An instruction, which unambiguously identifies the location, to delete one or more paragraphs of the specification, replace a deleted paragraph with one or more replacement paragraphs, or add one or more paragraphs;

(ii) Any replacement or added paragraph(s) in clean form, that is, without markings to indicate the changes that have been made; and

(iii) Another version of any replacement paragraph(s), on one or more pages separate from the amendment, marked up to show all the changes relative to the previous version of the paragraph(s). The changes may be shown by brackets (for deleted matter) or underlining (for added matter), or by any equivalent marking system. A marked up version does not have to be supplied for an added paragraph or a deleted paragraph as it is sufficient to state that a particular paragraph has been added, or deleted.

(2) *Amendment by replacement section.* If the sections of the specification contain section headings as provided in §§ 1.77(b), 1.154(b), or § 1.163(c), amendments to the specification, other than the claims, may be made by submitting:

(i) A reference to the section heading along with an instruction to delete that section of the specification and to replace such deleted section with a replacement section;

(ii) A replacement section in clean form, that is, without markings to indicate the changes that have been made; and

(iii) Another version of the replacement section, on one or more pages separate from the amendment, marked up to show all changes relative to the previous version of the section. The changes may be shown by brackets (for deleted matter) or underlining (for added matter), or by any equivalent marking system.

(3) *Amendment by substitute specification.* The specification, other than the claims, may also be amended by submitting:

(i) An instruction to replace the specification;

(ii) A substitute specification in compliance with § 1.125(b); and

(iii) Another version of the substitute specification, separate from the substitute specification, marked up to show all changes relative to the previous version of the specification. The changes may be shown by brackets (for deleted matter), or underlining (for added matter), or by any equivalent marking system.

(4) *Reinstatement.* Deleted matter may be reinstated only by a subsequent amendment presenting the previously deleted matter.

(c) *Claims.* —

(1) *Amendment by rewriting, directions to cancel or add.* Amendments to a claim must be made by rewriting such claim with all changes (e.g., additions, deletions, modifications) included. The rewriting of a claim (with the same number) will be construed as directing the cancellation of the previous version of that claim. A claim may also be canceled by an instruction.

(i) A rewritten or newly added claim must be in clean form, that is, without markings to indicate the changes that have been made. A parenthetical expression should follow the claim number indicating the status of the claim as amended or newly added (e.g., “amended,” “twice amended,” or “new”).

(ii) If a claim is amended by rewriting such claim with the same number, the amendment must be accompanied by

another version of the rewritten claim, on one or more pages separate from the amendment, marked up to show all the changes relative to the previous version of that claim. A parenthetical expression should follow the claim number indicating the status of the claim, e.g., “amended,” “twice amended,” etc. The parenthetical expression “amended,” “twice amended,” etc. should be the same for both the clean version of the claim under paragraph (c)(1)(i) of this section and the marked up version under this paragraph. The changes may be shown by brackets (for deleted matter) or underlining (for added matter), or by any equivalent marking system. A marked up version does not have to be supplied for an added claim or a canceled claim as it is sufficient to state that a particular claim has been added, or canceled.

(2) A claim canceled by amendment (deleted in its entirety) may be reinstated only by a subsequent amendment presenting the claim as a new claim with a new claim number.

(3) A clean version of the entire set of pending claims may be submitted in a single amendment paper. Such a submission shall be construed as directing the cancellation of all previous versions of any pending claims. A marked up version is required only for claims being changed by the current amendment (see paragraph (c)(1)(ii) of this section). Any claim not accompanied by a marked up version will constitute an assertion that it has not been changed relative to the immediate prior version.

(d) *Drawings.* Application drawings are amended in the following manner: Any change to the application drawings must be submitted on a separate paper showing the proposed changes in red for approval by the examiner. Upon approval by the examiner, new drawings in compliance with § 1.84 including the changes must be filed.

(e) *Disclosure consistency.* The disclosure must be amended, when required by the Office, to correct inaccuracies of description and definition, and to secure substantial correspondence between the claims, the remainder of the specification, and the drawings.

(f) *No new matter.* No amendment may introduce new matter into the disclosure of an application.

(g) *Exception for examiner's amendments:* Changes to the specification, including the claims, of an application made by the Office in an examiner's amendment may be made by specific instructions to insert or delete subject matter set forth in the examiner's amendment by identifying the precise point in the specification or the claim(s) where the insertion or deletion is to be made. Compliance with paragraphs (b)(1), (b)(2) or (c)(1) of this section is not required.

(h) *Amendments in reissue applications.* Any amendment to the description and claims in reissue applications must be made in accordance with § 1.173.

(i) *Amendments in reexamination proceedings:* Any proposed amendment to the description and claims in patents involved in reexamination proceedings in both *ex parte* reexaminations filed under § 1.510 and *inter partes* reexaminations filed under § 1.913 must be made in accordance with § 1.530(d)-(j).

(j) *Amendments in provisional applications:* Amendments in provisional applications are not normally made. If an amendment is made to a provisional application, however, it must comply with the provisions of this section. Any amendments to a

provisional application shall be placed in the provisional application file but may not be entered.

I. < WHEN APPLICANT MAY AMEND

The applicant may amend:

(A) before or after the first examination and action and also after the second or subsequent examination or reconsideration as specified in 37 CFR 1.112;

(B) after final rejection, if the amendment meets the criteria of 37 CFR 1.116; and

(C) when and as specifically required by the examiner.

Amendments in provisional applications are not normally made. If an amendment is made to a provisional application, however, it must comply with the provisions of 37 CFR 1.121. Any amendments to a provisional application will be placed in the provisional application file, but may not be entered.

II. < MANNER OF MAKING AMENDMENTS

After March 1, 2001, all amendments to the specification, including the claims, must be made by replacement paragraph/section/claim in clean form (without underlining and bracketing) in order to eliminate (1) the need for the Office to enter changes to the text of application portions by handwriting in red ink, and (2) the presence of hard to scan brackets and underlining to improve the patent publishing process. This practice requires the applicant to provide a clean copy of an amended paragraph/section/claim together with a marked up version using applicant's choice of a marking system showing the changes being made which will aid the examiner. The marked up version must be based on the immediate previous version and indicate (by markings) how the previous version has been modified to produce the clean replacement paragraph(s), section(s), specification or claim(s) submitted in the current amendment. "Previous version" is defined as the version of record in the application as originally filed or from a previously entered amendment.

Amendments to the Specification

In order to delete, replace or add a paragraph to the specification of an application, the amendment must

unambiguously identify the paragraph to be modified either by paragraph number (see MPEP § 608.01), page and line, or any other unambiguous method and be accompanied by the replacement paragraph(s) in clean form.

Where paragraph numbering has been included in an application as provided in 37 CFR 1.52(b)(6), applicants can easily refer to a specific paragraph by number when presenting an amendment. If a numbered paragraph is to be replaced by a single paragraph, the added replacement paragraph should be numbered with the same number of the paragraph being replaced. Where more than one paragraph is to replace a single original paragraph, the added paragraphs should be numbered using the number of the original paragraph for the first replacement paragraph, followed by increasing decimal numbers for the second and subsequent added paragraphs, e.g., original paragraph [0071] has been replaced with paragraphs [0071], [0071.1], and [0071.2]. If a numbered paragraph is deleted, the numbering of the subsequent paragraphs should remain unchanged.

37 CFR 1.121(b)(1)(ii) requires that the replacement or added paragraph(s) be in clean form. This means that the added or replacement paragraph(s) must not include any markings to indicate the changes that have been made. 37 CFR 1.121(b)(1)(iii) requires that a separate version of the replacement paragraph(s) accompany the amendment. The separate version must include each replacement paragraph with markings to show the changes relative to the previous version as an aid to the examiner. A marked up version, however, does not have to be supplied for any added paragraph(s) or any deleted paragraph(s), as it is sufficient to merely indicate or identify any paragraph that has been added or deleted.

Applicants are also permitted to amend the specification by replacement sections (e.g., as provided in 37 CFR 1.77(b), 1.154(b), or 1.163(c)). As with replacement paragraphs, the amended version of a replacement section is required to be provided in clean form, that is, without any markings to show the changes that have been made. A separate marked up version showing the changes in the section relative to the previous version must accompany the actual amendment as an aid to the examiner.

Applicants are also permitted to amend the specification by submitting a substitute specification, pro-

vided the requirements of 37 CFR 1.125(b) are met. An accompanying separate marked up version showing the changes in the specification relative to the previous version is also required.

Any subject matter deleted by amendment can only be reinstated by a subsequent amendment presenting the previously deleted subject matter. A direction by applicant to remove a previously entered amendment will not be permitted.

Amendments to the Claims

All amendments to a claim must be presented in the form of a rewritten claim. Any rewriting of a claim will be construed as a direction to cancel the previous version of the claim. See *In re Byers*, 230 F.2d 451, 455, 109 USPQ 53, 55 (CCPA 1956) (amendment of a claim by inclusion of an additional limitation had exactly the same effect as if the claim as originally presented had been canceled and replaced by a new claim including that limitation). Any rewritten or newly added claim must be submitted in clean form, that is, with no markings to indicate the changes that have been made*. If a claim is amended by rewriting the claim with the same number, the amendment must be accompanied by a marked up version separate from the amendment using applicant's choice of marking system to indicate the changes being made. A parenthetical expression should follow the claim number indicating the status of the claim as amended or newly added, e.g., "amended," "twice amended," or "new," in both the clean version and the marked up version. A marked up version does not have to be supplied for any added claims or any canceled claims. If a marked up version is supplied to show changes made to amended claims, however, applicant should identify (in the marked up version) any added or canceled claims with a statement, such as, "Claim 6 has been canceled." A canceled claim can be reinstated only by a subsequent amendment presenting the claim as a new claim with a new claim number.

Applicants may submit a clean version (with no markings) of all of the pending claims in one amendment paper. Applicants may wish to consolidate all previous versions of pending claims from a series of separate amendment papers into a single clean version in a single amendment paper. Providing this consolidation of claims in the file will be beneficial to both the Office and the applicant for patent printing purposes.

When rewriting a claim in the clean set, the parenthetical expression, if any, from the claim to be rewritten should not appear in the clean set. Thus, the only time a parenthetical expression should appear in the clean set is when a claim is being amended. See MPEP § 714.13 for submitting a clean set of claims under 37 CFR 1.116 and MPEP § 714.16 for submitting a clean set under 37 CFR 1.312. See also MPEP § 714.22(a).

It is recommended that the following format be used by applicants in complying with the revised amendment practice requirements. The amendment paper should include, in the following order:

- (A) a clean version of the amended (replacement) paragraph(s)/claim(s);
- (B) a remarks section (beginning on a separate sheet); and
- (C) a marked-up version (also beginning on a separate sheet) showing changes and clearly identified as **"Version with markings to show changes made."**

The submission of a clean version of all pending claims shall be construed as directing the cancellation of all previous versions of any pending claims. A marked up version would only be needed for claims being changed by the current amendment (see 37 CFR 1.121(c)(1)(ii)). Any claim not accompanied by a marked up version will constitute an assertion that it has not been modified relative to the immediate prior version. Thus, if applicant is not making any amendments to the claims, but is merely presenting all pending claims in clean form, without any underlining and bracketing, a marked up version should not be submitted.

37 CFR 1.121(g) permits the Office to make amendments to the specification, including the claims, by examiner's amendments without paragraph/section/claim replacement in the interest of expediting prosecution and reducing cycle time. Additions or deletions of subject matter in the specification, including the claims, may be made by instructions to make the change at a precise location in the specification or the claims. See MPEP § 1302.04.

III. REVISED MANNER OF MAKING AMENDMENTS

Effective January 31, 2003, the Office is permitting applicants to submit amendments in a revised format

as set forth below. All applicants including applicants participating in the Office's electronic file wrapper prototype may submit amendments in reply to Office actions using the revised format. The Office's electronic file wrapper prototype program is described in "USPTO ANNOUNCES PROTOTYPE OF IMAGE PROCESSING," 1265 O.G. 87 (Dec. 17, 2002), and applies only to Group Art Unit 1634, 2827, and 2834.

Waiver of 37 CFR 1.121

The provisions of 37 CFR 1.121(a), (b), (c), and (d) are waived for amendments to the claims, specification, and drawings in all applications in all Technology Centers where the amendments comply with the revised amendment format detailed below. The revised amendment format (and the waiver) does not apply to 37 CFR 1.121(h) and (i) which indicate that amendments to reissue applications and reexamination proceedings are governed by 37 CFR 1.173 for reissue applications and 37 CFR 1.530(d) – (k) for *ex parte* and *inter partes* reexaminations.

Revised Amendment Format

1. Begin on Separate Sheets

Each section of an amendment (e.g., Claim Amendments, Specification Amendments, Remarks) shall begin on a separate sheet to facilitate separate indexing and electronic scanning of each part of an amendment document for placement in an electronic file wrapper. For example, each of the following four sections of an amendment paper must start on a separate sheet:

- (A) Introductory Comments;
- (B) Amendments to the Specification;
- (C) Amendments to the Claims;
- (D) Remarks.

2. Two Versions of Amendment Part(s) No Longer Required

The current requirement in 37 CFR 1.121(b) and (c) to provide two versions (a clean version and a marked up version) of each replacement paragraph, section, substitute specification or claim will be waived where an amendment is submitted in the format noted below.

3. Amendment to the Claim

Each amendment document that includes a change to an existing claim, or submission of a new claim, must include a complete listing of all claims in the application. After each claim number, the status must be indicated in a parenthetical expression, **and** the text of each claim under examination (with markings to show current changes) must be presented. The listing will serve to replace all prior versions of the claims in the application.

(A) The current status of all of the claims in the application, including any previously canceled or withdrawn claims, must be given. Status is indicated in a parenthetical expression following the claim number by one of the following: (original), (currently amended), (previously amended), (canceled), (withdrawn), (new), (previously added), (reinstated – formerly claim #_), (previously reinstated), (re-presented – formerly dependent claim #_), or (previously re-presented). The text of all pending claims under examination must be submitted each time **any** claim is amended. Canceled and withdrawn claims should be indicated by only the claim number and status.

(B) All claims being currently amended must be presented with markings to indicate the changes that have been made relative to the immediate prior version. The changes in **any** amended claim **should** be shown by strikethrough (for deleted matter) or underlining (for added matter). An accompanying clean version is not required and should not be presented. Only claims of the status "currently amended" will include markings.

(C) The text of pending claims not being amended must be presented in clean version, i.e., without any markings. Any claim presented in clean version will constitute an assertion that it has **not** been changed relative to the immediate prior version.

(D) A claim may be canceled by merely providing an instruction to cancel. Listing a claim as canceled will constitute an instruction to cancel. **Any** claims added by amendment must be indicated as (new) and must not be underlined.

(E) All of the claims in each amendment paper must be presented in ascending numerical order. Consecutive canceled or withdrawn claims may be aggregated into one statement (e.g., Claims 1 – 5 (canceled)).

Example of listing of claims:

Claims 1-5 (canceled)

Claim 6 (withdrawn)

Claim 7 (previously amended): A bucket with a handle.

Claim 8 (currently amended): A bucket with a ~~green~~ blue handle.

Claim 9 (withdrawn)

Claim 10 (original): The bucket of claim 8 with a wooden handle.

Claim 11 (canceled)

Claim 12 (new): A bucket with plastic sides and bottom.

Claim 13 (previously added): A bucket having a circumferential upper lip.

Claim 14 (re-presented – formerly claim 11): A black bucket with a wooden handle.

4. Amendments to the Specification

Amendments to the specification are to be made by presenting a replacement paragraph, section or substitute specification marked up to show changes made relative to the immediate prior version. The changes should be shown by strikethrough (for deleted matter) or underlining (for added matter). An accompanying clean version is not required and should not be presented.

5. Amendments to the Drawing

Drawing changes must be made by presenting replacement figures which incorporate the proposed changes and which comply with 37 CFR 1.84. An explanation of the changes made must be presented in the remarks section of the amendment. If the changes to the drawing figure(s) are not approved by the examiner, applicant will be notified in the next Office action. Any replacement drawing sheet should include all of the figures appearing on the immediate prior version of the sheet, even though only one figure may be amended. The figure or figure number of the amended drawing should not be labeled as "amended".

IV. <AMENDMENT IN REEXAMINATION PROCEEDINGS

In patent-owner-filed reexaminations, the patent owner may amend at the time of the request for reex-

amination in accordance with 37 CFR 1.510(e). In any reexamination proceeding, no amendment or response can be filed between the date of the request for reexamination and the order for reexamination. See 37 CFR 1.530(a). Following the order for reexamination under 37 CFR 1.525 and prior to the examination phase of a reexamination proceeding, an amendment may be filed only with the patent owner's statement under 37 CFR 1.530(b). During the examination phase of the reexamination proceeding, an amendment may be filed:

(A) after the first examination as specified in 37 CFR 1.112;

(B) after final rejection or an appeal has been taken, if the amendment meets the criteria of 37 CFR 1.116; and

(C) when and as specifically required by the examiner.

See also MPEP § 714.12.

For amendments in reexamination proceedings see MPEP § 2250 and § 2266.

714.01 Signatures to Amendments

An amendment must be signed by a person having authority to prosecute the application. An unsigned or improperly signed amendment will not be entered. See MPEP § 714.01(a).

To facilitate any telephone call that may become necessary, it is recommended that the complete telephone number with area code and extension be given, preferably near the signature.

714.01(a) Unsigned or Improperly Signed Amendment

37 CFR 1.33. Correspondence respecting patent applications, reexamination proceedings, and other proceedings

(b) *Amendments and other papers.* Amendments and other papers, except for written assertions pursuant to § 1.27(c)(2)(ii) of this part, filed in the application must be signed by:

(1) A registered attorney or agent of record appointed in compliance with § 1.34(b);

(2) A registered attorney or agent not of record who acts in a representative capacity under the provisions of § 1.34(a);

(3) An assignee as provided for under § 3.71(b) of this chapter; or

(4) All of the applicants (§ 1.41(b)) for patent, unless there is an assignee of the entire interest and such assignee has taken action in the application in accordance with § 3.71 of this chapter.

An unsigned amendment or one not properly signed by a person having authority to prosecute the application is not entered. This applies, for instance, where the amendment is signed by only one of two applicants and the one signing has not been given a power of attorney by the other applicant.

If copies of papers which require an original signature as set forth in 37 CFR 1.4(e) are filed, the signature must be applied after the copies are made. MPEP § 714.07.

When an unsigned or improperly signed amendment is received the amendment will be listed on the file wrapper, but not entered. The examiner will notify applicant of the status of the application, advising him or her to furnish a duplicate amendment properly signed or to ratify the amendment already filed. In an application not under final rejection, applicant should be given a 1-month time period in which to ratify the previously filed amendment (37 CFR 1.135(c)).

Applicants may be advised of unsigned amendments by use of form paragraph 7.84.01.

¶ 7.84.01 Paper Is Unsigned

The proposed reply filed on [1] has not been entered because it is unsigned. Since the above-mentioned reply appears to be *bona fide*, applicant is given a TIME PERIOD of ONE (1) MONTH or THIRTY (30) DAYS from the mailing date of this notice, whichever is longer, within which to supply the omission or correction in order to avoid abandonment. EXTENSIONS OF THIS TIME PERIOD MAY BE GRANTED UNDER 37 CFR 1.136(a).

Sometimes problems arising from unsigned or improperly signed amendments may be disposed of by calling in the local representative of the attorney or agent of record, since he or she may have the authority to sign the amendment.

An amendment signed by a person whose name is known to have been removed from the registers of attorneys and agents under the provisions of 37 CFR 10.11 is not entered. The file and unentered amendment are submitted to the Office of Enrollment and Discipline for appropriate action.

714.01(c) Signed by Attorney or Agent Not of Record

See MPEP § 405. A registered attorney or agent acting in a representative capacity under 37 CFR 1.34, may sign amendments even though he or she does not have a power of attorney in the application. See MPEP § 402.

714.01(d) Amendment Signed by Applicant but Not by Attorney or Agent of Record

If an amendment signed by the applicant is received in an application in which there is a duly appointed attorney or agent, the amendment should be entered and acted upon. Attention should be called to 37 CFR 1.33(a) in patent applications and to 37 CFR 1.33(c) in reexamination proceedings. Two copies of the action should be prepared, one being sent to the attorney and the other directly to the applicant. The notation: "Copy to applicant" should appear on the original and on both copies.

714.01(e) Amendments Before First Office Action

A preliminary amendment is an amendment that is received in the Office on or before the mail date of the first Office action under 37 CFR 1.104. See 37 CFR 1.115(a). If the date of receipt (37 CFR 1.6) of the amendment is later than the mail date of the first Office action and is not responsive to the first Office action, the Office will not mail a new Office action, but simply advise the applicant that the amendment is nonresponsive to the first Office action and that a responsive reply must be timely filed to avoid abandonment. See MPEP § 714.03.

A preliminary amendment not filed along with the original application does not enjoy the status of part of the original disclosure. See MPEP § 608.04(b). Where an application filed under 37 CFR 1.53(b) is filed without a signed oath or declaration and such application is accompanied by an amendment, that amendment is considered a part of the original disclosure. The subsequently filed oath or declaration must refer to both the application and the amendment. Any copy of the application as filed must include a copy of

the amendment as well, particularly where certified copies for priority purposes are requested.

Preliminary amendments should either accompany the application or be filed after the application has received its application number and filing date. See MPEP § 502.

Any amendment canceling claims in order to reduce the filing fee should be filed with the application. Since only amendments canceling claims are entered before the filing fee is calculated, any other changes to the claims and/or specification should be part of a separate amendment. See MPEP § 506.

If a preliminary amendment fails to comply with 37 CFR 1.121, applicant will be notified by way of a Notice of Non-Compliant Amendment and given a non-extendable period of one month to bring the amendment into compliance with 37 CFR 1.121. If no corrective action is taken by the applicant, examination of the application may commence without entry of the proposed non-compliant preliminary amendment. See MPEP § 714.03.

A preliminary amendment will be entered unless it is disapproved by the Commissioner. A preliminary amendment may be disapproved by the Commissioner if the preliminary amendment unduly interferes with the preparation of an Office action. 37 CFR 1.115(b). See MPEP § 714.03(a).

714.02 Must Be Fully Responsive

37 CFR 1.111. Reply by applicant or patent owner to a non-final Office action.

(a)(1) If the Office action after the first examination (§ 1.104) is adverse in any respect, the applicant or patent owner, if he or she persists in his or her application for a patent or reexamination proceeding, must reply and request reconsideration or further examination, with or without amendment. See §§ 1.135 and 1.136 for time for reply to avoid abandonment.

(2) A second (or subsequent) supplemental reply will be entered unless disapproved by the Commissioner. A second (or subsequent) supplemental reply may be disapproved if the second (or subsequent) supplemental reply unduly interferes with an Office action being prepared in response to the previous reply. Factors that will be considered in disapproving a second (or subsequent) supplemental reply include:

(i) The state of preparation of an Office action responsive to the previous reply as of the date of receipt (§ 1.6) of the second (or subsequent) supplemental reply by the Office; and

(ii) The nature of any changes to the specification or claims that would result from entry of the second (or subsequent) supplemental reply.

(b) In order to be entitled to reconsideration or further examination, the applicant or patent owner must reply to the Office action. The reply by the applicant or patent owner must be reduced to a writing which distinctly and specifically points out the supposed errors in the examiner's action and must reply to every ground of objection and rejection in the prior Office action. The reply must present arguments pointing out the specific distinctions believed to render the claims, including any newly presented claims, patentable over any applied references. If the reply is with respect to an application, a request may be made that objections or requirements as to form not necessary to further consideration of the claims be held in abeyance until allowable subject matter is indicated. The applicant's or patent owner's reply must appear throughout to be a *bona fide* attempt to advance the application or the reexamination proceeding to final action. A general allegation that the claims define a patentable invention without specifically pointing out how the language of the claims patentably distinguishes them from the references does not comply with the requirements of this section.

(c) In amending in reply to a rejection of claims in an application or patent under reexamination, the applicant or patent owner must clearly point out the patentable novelty which he or she thinks the claims present in view of the state of the art disclosed by the references cited or the objections made. The applicant or patent owner must also show how the amendments avoid such references or objections.

In all cases where reply to a requirement is indicated as necessary to further consideration of the claims, or where allowable subject matter has been indicated in an application, a complete reply must either comply with the formal requirements or specifically traverse each one not complied with.

Drawing and specification corrections, presentation of a new oath and the like are generally considered as formal matters. However, the line between formal matter and those touching the merits is not sharp, and the determination of the merits of an application may require that such corrections, new oath, etc., be insisted upon prior to any indication of allowable subject matter.

The claims may be amended by canceling particular claims, by presenting new claims, or by rewriting particular claims as indicated in 37 CFR 1.121(c). The requirements of 37 CFR 1.111(b) must be complied with by pointing out the specific distinctions believed to render the claims patentable over the references in presenting arguments in support of new claims and amendments.

An amendment submitted after a second or subsequent non-final action on the merits which is otherwise responsive but which increases the number of claims drawn to the invention previously acted upon

is not to be held not fully responsive for that reason alone. (See 37 CFR 1.112, MPEP § 706.)

The prompt development of a clear issue requires that the replies of the applicant meet the objections to and rejections of the claims. Applicant should also specifically point out the support for any amendments made to the disclosure. See MPEP § 2163.06.

An amendment which does not comply with the provisions of 37 CFR 1.121(b) and (c) may be held not fully responsive if both a clean version and a marked up version showing changes to the respective parts of the specification/claims are not provided. See MPEP § 714.22.

Replies to requirements to restrict are treated under MPEP § 818.

714.03 Amendments Not Fully Responsive; Action To Be Taken

37 CFR 1.135. *Abandonment for failure to reply within time period.*

(c) When reply by the applicant is a *bona fide* attempt to advance the application to final action, and is substantially a complete reply to the non-final Office action, but consideration of some matter or compliance with some requirement has been inadvertently omitted, applicant may be given a new time period for reply under § 1.134 to supply the omission.

An examiner may treat an amendment not fully responsive to a non-final Office action by:

(A) accepting the amendment as an adequate reply to the non-final Office action to avoid abandonment under 35 U.S.C. 133 and 37 CFR 1.135;

(B) notifying the applicant that the reply must be completed within the remaining period for reply to the non-final Office action (or within any extension pursuant to 37 CFR 1.136(a)) to avoid abandonment; or

(C) setting a new time period for applicant to complete the reply pursuant to 37 CFR 1.135(c).

The treatment to be given to the amendment depends upon:

(A) whether the amendment is *bona fide*;

(B) whether there is sufficient time for applicant's reply to be filed within the time period for reply to the non-final Office action; and

(C) the nature of the deficiency.

If an amendment submitted after March 1, 2001, fails to comply with 37 CFR 1.121 (as revised on September 8, 2000), the Office will notify applicant by a Notice of Non-Compliant Amendment, that the amendment fails to comply with the requirements of 37 CFR 1.121 and applicant will be given a period of time in which to comply with the rule. If the amendment that fails to comply with the requirements of the rule is a preliminary amendment, the Legal Instruments Examiner (LIE) will send the Notice which sets a time limit of 30 days or one month, whichever is later, for reply. No extensions of time are permitted. Failure to submit a timely reply will result in the application being examined without entry of the preliminary amendment. If the amendment which fails to comply with the requirements of the rule is an amendment after a non-final Office action, the LIE will send the Notice which sets a time limit of 30 days or one month, whichever is later, for reply (37 CFR 1.135). Extensions of time are permitted (37 CFR 1.136(a)). Failure to reply to this Notice will result in abandonment of the application. See MPEP § 714.22 for treatment of non-compliant amendments after final rejection.

Where an amendment substantially responds to the rejections, objections, or requirements in a non-final Office action (and is a *bona fide* attempt to advance the application to final action) but contains a minor deficiency (e.g., fails to treat every rejection, objection, or requirement), the examiner may simply act on the amendment and issue a new (non-final or final) Office action. The new Office action may simply reiterate the rejection, objection, or requirement not addressed by the amendment (or otherwise indicate that such rejection, objection, or requirement is no longer applicable). This course of action would not be appropriate in instances in which an amendment contains a serious deficiency (e.g., the amendment is unsigned or does not appear to have been filed in reply to the non-final Office action). Where the amendment is *bona fide* but contains a serious omission, the examiner should: A) if there is sufficient time remaining for applicant's reply to be filed within the time period for reply to the non-final Office action (or within any extension pursuant to 37 CFR 1.136(a)), notify applicant that the omission must be supplied within the time period for reply; or B) if there is insufficient time remaining, issue an Office

action setting a 1-month time period to complete the reply pursuant to 37 CFR 1.135(c). In either event, the examiner should not further examine the application on its merits unless and until the omission is timely supplied.

If a new time period for reply is set pursuant to 37 CFR 1.135(c), applicant must supply the omission within this new time period for reply (or any extensions under 37 CFR 1.136(a) thereof) in order to avoid abandonment of the application. The applicant, however, may file a continuing application during this period (in addition or as an alternative to supplying the omission), and may also file any further reply as permitted under 37 CFR 1.111.

Where there is sufficient time remaining in the period for reply (including extensions under 37 CFR 1.136(a)), the applicant may simply be notified that the omission must be supplied within the remaining time period for reply. This notification should be made, if possible, by telephone, and, when such notification is made by telephone, an interview summary record (see MPEP § 713.04) must be completed and entered into the file of the application to provide a record of such notification. When notification by telephone is not possible, the applicant must be notified in an Office communication that the omission must be supplied within the remaining time period for reply. For example, when an amendment is filed shortly after an Office action has been mailed, and it is apparent that the amendment was not filed in reply to such Office action, the examiner need only notify the applicant (preferably by telephone) that a reply responsive to the Office action must be supplied within the remaining time period for reply to such Office action.

The practice set forth in 37 CFR 1.135(c) does not apply where there has been a deliberate omission of some necessary part of a complete reply; rather, 37 CFR 1.135(c) is applicable only when the missing matter or lack of compliance is considered by the examiner as being "inadvertently omitted." For example, if an election of species has been required and applicant does not make an election because he or she believes the requirement to be improper, the amendment on its face is not a "*bona fide* attempt to advance the application to final action" (37 CFR 1.135(c)), and the examiner is without authority to postpone decision as to abandonment. Likewise, once

an inadvertent omission is brought to the attention of the applicant, the question of inadvertence no longer exists. Therefore, a second Office action giving another new (1 month) time period to supply the omission would not be appropriate under 37 CFR 1.135(c).

37 CFR 1.135(c) authorizes, but does not require, an examiner to give the applicant a new time period to supply an omission. Thus, where the examiner concludes that the applicant is attempting to abuse the practice under 37 CFR 1.135(c) to obtain additional time for filing a reply (or where there is sufficient time for applicant's reply to be filed within the time period for reply to the non-final Office action), the examiner need only indicate by telephone or in an Office communication (as discussed above) that the reply must be completed within the period for reply to the non-final Office action or within any extension pursuant to 37 CFR 1.136(a) to avoid abandonment.

The practice under 37 CFR 1.135(c) of giving applicant a time period to supply an omission in a *bona fide* reply does **not** apply after a final Office action. Amendments after final are approved for entry only if they place the application in condition for allowance or in better form for appeal. Otherwise, they are not approved for entry. See MPEP § 714.12 and § 714.13. Thus, an amendment should be denied entry if some point necessary for a complete reply under 37 CFR 1.113 (after final) was omitted, even if the omission was through an apparent oversight or inadvertence. Where a submission after a final Office action or appeal (e.g., an amendment under 37 CFR 1.116) does not place the application in condition for allowance, the period for reply under 37 CFR 1.113 continues to run until a reply under 37 CFR 1.113 (i.e., a notice of appeal or an amendment that places the application in condition for allowance) is filed. The nature of the omission (e.g., whether the amendment raises new issues, or would place the application in condition for allowance but for it being unsigned or not in compliance with 37 CFR 1.121) is immaterial. The examiner cannot give the applicant a time period under 37 CFR 1.135(c) to supply the omission; however, applicant may obtain additional time under 37 CFR 1.136(a) to file another or supplemental amendment in order to supply the omission.

When a reply to a final Office action substantially places the application in condition for allowance, an examiner may request that the applicant (or representative) authorize an examiner's amendment to correct the omission and place the application in condition for allowance, in which case the date of the reply is the date of such authorization (and not the date the incomplete reply was filed). An examiner also has the authority to enter the reply, withdraw the finality of the last Office action, and issue a new Office action, which may be a non-final Office action, a final Office action (if appropriate), or an action closing prosecution on the merits in an otherwise allowable application under *Ex parte Quayle*, 25 USPQ 74, 1935 C.D. 11, 435 O.G. 213 (Comm'r Pat. 1935) (if appropriate). These courses of action, however, are solely within the discretion of the examiner. It is the applicant's responsibility to take the necessary action in an application under a final Office action to provide a complete reply under 37 CFR 1.113.

Where there is an informality as to the fee in connection with an amendment to a **non-final** Office action presenting additional claims, the applicant is notified by the technical support staff on form PTOL-319. See MPEP § 607 and § 714.10.

Form paragraph 7.95, and optionally form paragraph 7.95.01, should be used where a *bona fide* reply is not fully responsive.

¶ 7.95 *Bona Fide, Non-Responsive Amendments*

The reply filed on [1] is not fully responsive to the prior Office action because of the following omission(s) or matter(s): [2]. See 37 CFR 1.111. Since the above-mentioned reply appears to be *bona fide*, applicant is given a TIME PERIOD of ONE (1) MONTH or THIRTY (30) DAYS from the mailing date of this notice, whichever is longer, within which to supply the omission or correction in order to avoid abandonment. EXTENSIONS OF THIS TIME PERIOD MAY BE GRANTED UNDER 37 CFR 1.136(a).

Examiner Note:

This practice does not apply where there has been a deliberate omission of some necessary part of a complete reply, or where the application is subject to a final Office action. Under such cases, the examiner has no authority to grant an extension if the period for reply has expired. See form paragraph 7.91.

¶ 7.95.01 *Lack of Arguments in Response*

Applicant should submit an argument under the heading "Remarks" pointing out disagreements with the examiner's contentions. Applicant must also discuss the references applied against the claims, explaining how the claims avoid the references or distinguish from them.

Examiner Note:

1. This form paragraph must be preceded by form paragraph 7.95.
2. This form paragraph is intended primarily for use in *pro se* applications.

714.03(a) Amendment Unduly Interferes with the Preparation of an Office Action

I. PRELIMINARY AMENDMENT

37 CFR 1.115. *Preliminary amendments.*

(a) A preliminary amendment is an amendment that is received in the Office (§ 1.6) on or before the mail date of the first Office action under § 1.104.

(b)(1) A preliminary amendment will be entered unless disapproved by the Commissioner. A preliminary amendment may be disapproved if the preliminary amendment unduly interferes with the preparation of a first Office action in an application. Factors that will be considered in disapproving a preliminary amendment include:

(i) The state of preparation of a first Office action as of the date of receipt (§ 1.6) of the preliminary amendment by the Office; and

(ii) The nature of any changes to the specification or claims that would result from entry of the preliminary amendment.

(2) A preliminary amendment will not be disapproved if it is filed no later than:

(i) Three months from the filing date of an application under § 1.53(b);

(ii) The filing date of a continued prosecution application under § 1.53(d); or

(iii) Three months from the date the national stage is entered as set forth in § 1.491 in an international application.

(c) The time periods specified in paragraph (b)(2) of this section are not extendable.

Once the examiner has started to prepare a first Office action, entry of a preliminary amendment may be disapproved if the preliminary amendment unduly interferes with the preparation of the first Office action. Applicants are encouraged to file all preliminary amendments with the application or as soon as possible thereafter. Entry of a preliminary amendment will not be disapproved if it is filed no later than:

(A) 3 months from the filing date of the application under 37 CFR 1.53(b);

(B) 3 months from the date the national stage is entered as set forth in 37 CFR 1.491 in an international application;

(C) the filing date of a CPA under 37 CFR 1.53(d); or
